Summary

Front-end Developer with 2 years of experience in building web and mobile applications using **Next.js, React, and Flutter**. Proficient in integrating **RESTful APIs** to provide seamless data flow and improve user interfaces. Skilled in leveraging **Prompt AI** techniques to streamline development processes and create innovative solutions. Adept at working in Agile environments, applying strong problem-solving abilities and fostering team collaboration to meet project goals and drive technical excellence. **Comfortable communicating in English** with teams to ensure smooth collaboration and alignment of the project.

Experience

- **GAOGAO Pte. Ltd.** HCMC, VN
Front-end Developer April. 2023 - Present
 - **Fitness Journey (Dec. 2024 – Present) [Android / iOS]**
 - * Description: Facility search and goal-setting mobile app for fitness lovers to make it a habit.
 - * Technologies and Responsibilities:
 - Built mobile app UI and core features using **Flutter**.
 - Integrated **Auth0** to manage secure user authentication and session handling.
 - Integrated client-provided **Web3 SDK** to support wallet login and blockchain transactions.
 - Collaborated with UI/UX designers to complete the full rebranding of the app, including UI themes, logo, and naming conventions.
 - Test, debug, and improve the performance of the application.
 - **GGG Metaverse (Apr. 2023 – Apr. 2025)**
 - * Description: Virtual space platform for real-time online events that allows users to create and join meetings, workshops, and other events in a virtual environment.
 - * Technologies and Responsibilities:
 - Developed core features using **Next.js** and **React.js**, including direct messaging with file/image/text support, password reset flow, admin panel for role management, and video meetings via third-party integration.
 - Structured UI components using **Atomic Design** to improve reusability and maintainability throughout the project.
 - Used **Styled Components CSS** to implement reusable and themeable component-level styles.
 - Used **AWS AppSync** with **GraphQL** for real-time direct messaging.
 - Managed CI/CD process through **AWS Amplify** and **image storage** with **AWS S3**.
 - Collaborated with the team to gather client requirements and implement new features.

Programming Skills

- **Languages:** TypeScript, JavaScript (ES6+), Dart, HTML, CSS
- **Libraries & Frameworks:** React, Next.js, Node.js, Redux, Styled-components, TailWindCSS, Flutter.
- **Tools & Technologies:** AWS (AppSync, Amplify, S3, DynamoDB), Docker, Git/GitHub, GraphQL, Figma Design, Jira.
- **Soft Skills:** Multitasking, Problem Solving, Communication, Teamwork, Agile.

Education

- **Ton Duc Thang University** HCMC, VN
Bachelor of Science in Software Engineering Sep. 2019 – Sep. 2024
